

ICTIA

INTERNATIONAL COUNCIL TOKENIZED INVESTMENT ASSETS

Advancing the Global Infrastructure for Tokenized Investment Assets

ICTIA is the international forum for the development of standards, policy, knowledge and institutional collaboration surrounding tokenized investment assets.

ABOUT ICTIA

The International Council for Tokenized Investment Assets (ICTIA) is an independent international council dedicated to advancing the responsible development, adoption and institutionalization of tokenized investment assets.

ICTIA brings together institutional investors, asset managers, financial institutions, exchanges, technology providers, legal and regulatory experts, governments and other market participants to establish dialogue, develop standards and promote best practices for the tokenization of investment assets.

OUR MISSION

To help build a trusted global framework for the tokenization, issuance, management, custody, transfer and secondary-market trading of investment assets, enabling traditional assets to participate in the digital capital markets.

WE COVER

- Equities
- Bonds
- Investment Funds
- Private Equity
- Private Credit
- Real Estate
- Commodities
- Infrastructure
- Alternative Assets
- Other Investment Securities

OUR CORE ACTIVITIES

STANDARDS & BEST PRACTICES

Developing internationally recognized frameworks for the responsible tokenization and management of investment assets.

POLICY & REGULATORY DIALOGUE

Facilitating dialogue among governments, regulators and industry participants regarding appropriate legal and regulatory frameworks.

RESEARCH & INTELLIGENCE

Producing research, market intelligence, indexes and publications on the evolution of tokenized capital markets.

CERTIFICATION & ACCREDITATION

Developing professional and institutional standards, certifications and accreditation programs.

EDUCATION

Providing executive education and professional development through the ICTIA Academy.

GLOBAL NETWORK

Connecting leading institutions and professionals through councils, working groups, conferences and international initiatives.

WHO SHOULD PARTICIPATE

Asset Managers & Institutional Investors

Banks & Financial Institutions

Investment Funds & Private Markets

Exchanges & Trading Venues

Custodians & Infrastructure Providers

Tokenization & Technology Companies

Law Firms & Professional Services

Governments & Regulatory Institutions

Family Offices & Sovereign Investors

Academics & Industry Expertise

WHY ICTIA

The transition from traditional financial assets to digitally represented, programmable and increasingly interoperable assets is creating a new generation of capital-market infrastructure.

ICTIA seeks to provide the neutral international forum where industry, institutions, technology providers and policymakers can collaborate to establish the standards, knowledge and infrastructure necessary for this evolution.

INDEPENDENT & NEUTRAL

A non-profit council serving the public interest and the financial ecosystem.

GLOBAL PERSPECTIVE

Bringing together participants from around the world to shape the future.

TRUST & INTEGRITY

Promoting transparency, investor protection and responsible innovation.

INSTITUTIONAL FOCUS

Designed for institutions, by institutions, for sustainable market development.

LEADERSHIP & INFLUENCE

Driving standards, policy and market best practices globally.
